Crest Healthcare

TekTone® Tek-CARE®300III Parts List

Your guide to TekTone® Tek-CARE®300III system parts available from Crest that are durable, economical and designed with infection control in mind.

CREST HEALTHCARE®

Enhancing the environment of care for those in need and those who care

Crest Healthcare is a leading provider of a wide range of healthcare products and technical services. Historically specialized in high-quality nurse call replacement parts, and today producing nurse call system components for nearly every current system, Crest has been a trusted source for innovative product development and production since 1967.

With customer satisfaction as our driving goal, Crest products provide quality, value, innovation, variety and durability. Working together to guarantee a positive experience, our in-house team includes customer service, technical support, engineering, manufacturing and quality assurance experts.

Engineering

Our engineering team is continually creating and testing new communication products. With the use of destructive and non-destructive in-house testing and prototype evaluations, Crest ensures every product provides durability and a long service life. Custom services are available to OEMs and other commercial customers.

Manufacturing

We build and assemble all the Crest products in-house and work closely with our manufacturing partners to ensure our same high quality standards are met.

Quality Assurance

We conduct testing on 100% of finished products we manufacture prior to shipment. Crest products meet or exceed demanding safety standards up to and including UL 1069 Recognition.

Quality Certifications

Crest strives to offer you high quality products to support your facility needs. Crest Healthcare is ISO 13485:2016 certi-fied provider of Pillow Speakers, Nurse Call Stations, Nurse Call Cords, and Bed Control Equipment. Our certification represents our commitment to on-going quality improvements and a dedication to higher levels of performance, service and quality products. We received our first certification in 1999 (ISO 9001) and Crest continues to improve quality in all aspects of designing, manufacturing and customer service.

TekTone® Tek-CARE®300III
Nurse Call Components

Elite**Digital**™

Crest Elite Digital™ Pillow Speakers

Designed for use with digital TVs, Autosense™ Technology automatically identifies the brand of digital healthcare TV and sends the correct signal. They can be moved to any room, regardless of healthcare television brand.

• **Robust design, easy to disinfect**
• **No batteries needed for nurse call operation**
• **Distinctive nurse call button with Braille**

Elite**Infrared**™

Crest Elite Infrared™ Pillow Speakers

The Crest Elite Infrared Pillow Speaker is the only pillow speaker that combines nurse call and TV with external DVD or Set Top Box (STB) controls. It combines the ease of a universal remote with traditional pillow speaker functionality such as nurse call and environmental controls. It is also useful where there is no cross-room wiring or with TVs that do not have a pillow speaker port. Uses two AAA batteries (included).
- **Robust design, easy to disinfect**
- **No batteries needed for nurse call operation**
- **Distinctive nurse call button with Braille**

RemoteCall IR™

! *Programming instructions and code list can be found at www.cresthealthcare.com under the "Resources" tab*

Crest Remote Call-IR™ TV Control & Nurse Call

Replace your call cord and remote control with one simple device. The Crest Remote Call-IR controls the TV using IR signals like a universal remote while still providing the safety of reliable wired nurse call.

Remote Call-IR plugs into your nurse call station to ensure it stays within the room and is durable enough to withstand drops and daily use. The 10-key overlay style is great for emergency rooms or private patient rooms, where the room is not wired for TV sound or the sound control of a pillow speaker is not needed. The large button overlay is perfect for kids, geriatric patients or residents with limited dexterity. Features simplified control of TV power, channel and volume with big, easy-to-see buttons. Both styles feature an on-board library of codes that can be used to program it to work with almost any TV. Uses two AA batteries (not included) that last as long as in typical TV remotes.

• **Robust design, easy to disinfect**
• **No batteries needed for nurse call operation**
• **Distinctive nurse call button with Braille**
• **Bed A & B functionality**
• **Fits Crest Pillow Speaker Keeper**

Specifications

Height:	6 ½"

Magnetic Break-A-Way Cable System

The Magnetic Break-a-Way Cable System saves both wall stations and pillow speakers from damage due to cable stress. Any cable pressure over 6 lb will break the magnetic connection and disconnect the pillow speaker without damage to the wall station. The magnets guide the connection, ensuring the pillow speaker is correctly and quickly connected - no more fumbling or broken pins.

- **Eliminate downtime & cost of wall station repairs**
- **Save on pillow speaker replacements**
- **Cable length is approximately 2'**
- **Also works with call cords**

Station Savers & Dummy Plugs

114681-10

114681-01

Station Savers

Station Savers create a break-away point between cord and station to help prevent damage. Disconnection of cord triggers cord-out on stations with this feature.

Part No.	System	Description	Length	Price
114681-01	Tek-CARE300III	RJ45 8-pin	1'	22.81
114681-10	Tek-CARE300III	RJ45 8-pin	10'	28.53

113703

7710W-D

Dummy Plugs

Dummy plugs provide proper termination to eliminate cord out calls from being placed when a call cord, pillow speaker or bed is disconnected from the wall station. Select the plug end type to fit your needs.

Part No.	System	Description	Price
113703	Tek-CARE300III	8-pin DIN	11.27
7710W-D	Tek-CARE300III	RJ45 8-pin, 5" connecting cord	14.83

Crest Nurse Call Adapters

Adapters accommodate multiple nurse call devices from a single wall receptacle or convert your existing station to an alternative plug style. Allows patient monitoring equipment to be used simultaneously with a standard call cord or pillow speaker.

Type B Adapters convert your existing receptacle to the same receptacle and one ¼" phone receptacle.

Type D Adapters convert your existing receptacle to one ¼" phone receptacle.

Type Y Adapters convert your existing receptacle to two ¼" phone receptacles.

Type Y2 Adapters convert your existing receptacle to one female receptacle of the same style and one ¼" phone receptacle.

Type Y3 Adapters convert your existing receptacle to two of your existing receptacles.

Visual Signals

UL LISTED

4-Lamp LED Corridor Dome Light – OEM

The TekTone 4-lamp LED Corridor Dome Light provides visual indication that a call was made. Amber, green, red and white colored LEDs indicate patient call priority and staff presence. When used with any room station or IR310E TekTone Staff Station, the LI380LED indicates calls originated from that specific room. Fits standard 1-gang or 2-gang box with 1-gang or 2-gang ring.

- **For use with Tek-CARE300III System**
- **Long lasting LEDs, no bulb replacement required**
- **Plug-in connector included**
- **Attractive flame-retardant plastic panel**
- **UL® 1069 Listed**

Part No.	System	Description	Price
LI380LED	Tek-CARE300III	LED Corridor Pilot Light, 4-lamp, 24 VDC	**85.17**

UL LISTED
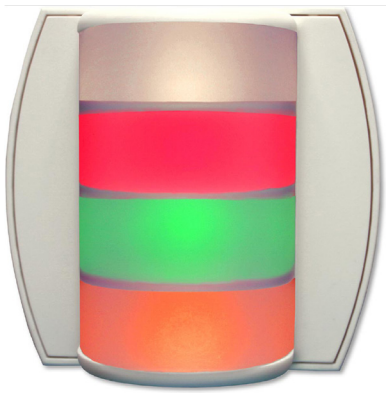

Addressable Dome/Zone Light – OEM

TekTone's LI386LED Dome/Zone Light with built in multipurpose station provides visual indication of calls originating from bath, emergency and code call switches when used as a dome light. The LI386LED indicates calls originating from patient and staff stations when used as a zone light. The LI386LED also indicates all calls from the zones to which those stations are assigned and provides communication to and from the central equipment, including the nurse master station and monitor. No controls are provided.

- **For use with Tek-CARE300III System**
- **Long lasting LEDs**
- **No bulb replacement required**
- **Simplified multiplex wiring**
- **UL® 1069 Listed**

| Part No.	System	Description	Price
LI386LED	Tek-CARE300III	LED Corridor Zone Light, 24 VDC	**283.90**

LI381

Corridor Dome Lights – OEM

TekTone original equipment Corridor Dome Lights provide visual indication of any type call and fit standard 2-gang, plaster ring. Features translucent white plastic cover which mounts on a standard mounting plate.

- **For use with Tek-CARE300III System**
- **Designed for easy bulb replacement**
- **UL®1069 Listed**

Part No.	System	Description	Price
LI381	Tek-CARE300III	Corridor Dome Light, 1-lamp, 28 VDC, 40 mA	**26.15**
LI382	Tek-CARE300III	Corridor Dome Light, 2-lamp, 28 VDC, 40 mA	**40.08**
RP092		Replacement Lens for Corridor Dome Light	**7.97**
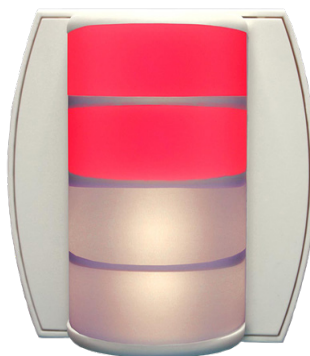

LED Corridor Zone Light – OEM

The LI382LED Corridor Zone Light provides visual indication of calls when used with a nurse call system, emergency call system, or similar application. Indicates an emergency call by the rapid flashing of the two red LED bulbs associated with the zone or area from which an emergency call has been placed. Normal calls are indicated by a steady illumination of the two white LEDs. If an emergency or normal call are placed in the same zone at the same time, the red LEDs connected to the emergency station will flash rapidly, while the white LEDs associated with the normal call will maintain a steady illumination.

- **For use with Tek-CARE300III System**
- **Long lasting LEDs & no bulb replacement needed**
- **Plug-in connector supplied**
- **Attractive flame-retardant plastic panel**
- **Standard mounting plate for 1-gang or 2-gang mounting options**
- **UL®1069 Listed**

Part No.	System	Description	Price
LI382LED	Tek-CARE300III	LED Corridor Zone Light, 24 VDC	**66.80**

Master Station

NC415G3
Shown with optional TA415L

Master Station with LCD Touchscreen Display - OEM

This master station console option for systems using Gen2 central equipment modules provides for push to talk audio control for audio capable systems, but if desired, add the optional handset kit for better privacy. The user interface layout allows staff to view calls on the screen across devices on the same system. Up to three incoming calls are displayed by priority and time and are also color coded for easy recognition. Routine calls are annunciated with a steady call LED and slow pulsing tone with station number displayed on the touchscreen. Features a color LCD display with touch screen, with controls for tone volume, page view buttons, clock, and call listing. All calls must be canceled from the point of origin unless it is a routine call from an audio capable station.

• **For use with Tek-CARE300III System**
• **Touchscreen to simply navigate calls or menus**
• **Use for both audio/visual & tone/visual applications**
• **Calls can be selected out of order**
• **RoHS compliant**

Part No.	System	Description	Price
NC415G3	Tek-CARE300III	Master Station with LCD Touchscreen Display	1460.03
TA415L	Tek-CARE300III	Optional Handset Kit, includes cradle, handset and cord	200.00

IR311E   IR319B   IR320B

Patient Stations – OEM

The IR319B Single Patient Station and the IR320B Dual Patient Station from TekTone have two-way communication between patient and nurse, and provides for programmable privacy, paging and patient priority from the master station. If a call cord or pillow speaker is accidentally removed from its receptacle, the nurse master station registers a "cord out" call. Dual Patient Station additionally features independently operating receptacle and a second call-placed indicator.

- **For use with Tek-CARE300III System**
- **Select 8-pin or RJ45 receptacles**
- **LED light indicate call-placed & intercom in use**
- **UL® 1069 Listed**

| Part No.	System	Description	Price
IR311E	Tek-CARE300III	Single Patient Station, with RJ45 8-pin modular jack	**347.89**
IR312E	Tek-CARE300III	Dual Patient Station , with two RJ45 8-pin modular jacks	**407.97**

IR320B	Tek-CARE300III	Dual Patient Station, 8-pin DIN	**247.14**
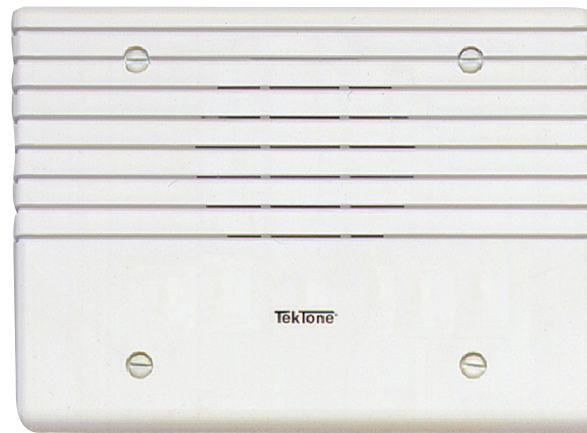

Multi-Purpose Station– OEM

Multi-Purpose Stations provide audible, visual and digital communications, but do not have the controls, LEDs or speakers normally associated with patient, staff or duty stations. Applications may include providing input for code emergency call stations in an ICU or providing input for bath emergency call switches in public bath areas.

- **For use with Tek-CARE300III System**
- **Microprocessor design**
- **UL® 1069 Listed**

Part No.	System	Description	Price
IR300E	Tek-CARE300III	Multi-Purpose Station,12 VDC	**204.75**

Staff Station & Duty Station

## Staff Station – OEM

Staff Pushbutton Station from TekTone. Mounts on a 2-gang box, with a plastic faceplate. Features "call" and "cancel" buttons.

- **For use with Tek-CARE300III System**
- **Call-placed & privacy indicators for ease of use**

Part No.	System	Description	Price
IR310C	Tek-CARE300III	Staff Station, pushbutton	**245.49**

Duty Station– OEM

Duty station from TekTone. Mounts on a 2-gang box, with a plastic faceplate. Features "call" and "reset" buttons.

- **For use with Tek-CARE300III System**
- **Speaker incorporated**
- **UL® 1069 Listed**

Part No.	System	Description	Price
IR315F	Tek-CARE300III	Duty Station, with speaker	**245.49**

Single Patient Station – OEM

The Single Patient Station provides reliable two-way hands-free communication between patient and nurse, and provides for programmable privacy, paging and patient priority from the master station. Call-placed indicator on the panel indicate the call has been placed and the intercom is in use.

- **For use with Tek-CARE300III System**
- **Includes 6' washable TPU plastic pullcord**
- **UL® 1069 Listed**

Part No.	System	Description	Price
IR318B	Tek-CARE300III	Single Patient Station, with call-placed indicator	**220.44**

JK300A

JK300/2

Monitor Call Interface Stations – OEM

The Monitor Call Interface from TekTone is for use in locations where a simple interface is needed. Accepts a standard ¼" plug and registers a "cord out" call. Dummy plug included for use when not connected to a device.

- **For use with Tek-CARE300III System**
- **Wire lead pigtail connections**

Part No.	System	Description	Price
JK300A	Tek-CARE300III	Monitor Call Interface Station, ¼" phone jack	**31.73**
JK300/2	Tek-CARE300III	Monitor Call Interface Station, ¼" dual phone jack	**50.10**

Pullcord Station & Code Blue Station

Emergency Pullcord Station – OEM

Emergency Pullcord Station from TekTone features a pull-down style actuator with optional pullcord, and a call placed LED. Mounts on a 1-gang box, with a plastic faceplate.

- **For use with Tek-CARE300III System**
- **Call-placed indicator**

Part No.	System	Description	Price
SF340B	Tek-CARE300III	Emergency Pullcord Station	**53.44**

Code Blue Station– OEM

This TekTone station features a code blue slide activator. A call can be canceled by returning the slide activator to the up position. Includes a call-placed indicator for call assurance. Ideal for ICU/CCU, physical therapy rooms, post-op recovery and more.

- **For use with Tek-CARE300III System**
- **Call-placed indicator**
- **UL® 1069 Listed**

Part No.	System	Description	Price
SF341B	Tek-CARE300III	Code Blue Pullcord Station	**63.65**

Staff Presence Station – OEM

The Staff Presence Station provides push button registration of nurse presence (green LED indicator), or aid presence (yellow LED indicator) at remote locations. Can also be used to transfer nurse follower feature from room to room as nursing staff proceeds with rounds. Depressing the nurse presence button automatically transfers indication of all subsequent patient calls to the remote location of the nurse, as well as the master station.

- **For use with Tek-CARE300III System**
- **Plug-in connectors provide for simple wiring**
- **UL® 1069 Listed**

Part No.	System	Description	Price
SF350B	Tek-CARE300III	Staff Presence Station	**97.24**

Visual-Only Patient Station – OEM

Visual-Only Patient Stations from TekTone provide routine, bath emergency and code calls to the master station.

- **For use with Tek-CARE300III System**
- **Call-placed indicator**
- **Low power requirements**
- **UL® 1069 Listed**

Part No.	System	Description	Price
SF380A	Tek-CARE300III	Visual-Only Patient Station	**143.50**
