

Quarter-Fold Wipes

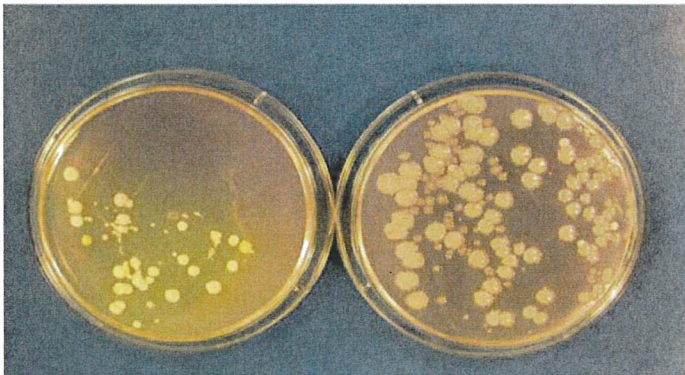

Wipe Laundering is Expensive and Spreads Pathogens

Laundered Wipes are Spreading Pathogens¹

Before Cleaning

After Cleaning

Laundering Dirty Wipes is a Difficult Process to Manage

Many Issues with Laundered Wipes

Laundered wipes are contaminated

- 93% of laundered cloths return contaminated

Laundered wipes are non-compliant

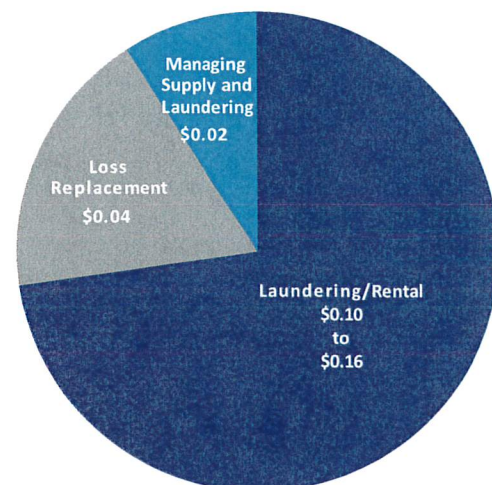

- Wipes are usually not laundered in a complete manner
- Wipes often bind the disinfectants

Laundered wipes are expensive

- It costs \$0.16 to \$0.22 to wash and reuse a cloth wipe

Maintaining adequate supply of clean wipes is difficult

Cost of Laundering Wipes

TRUST™ L3 WIPES

Quarter-Fold Wipes

Designed Specifically for Healthcare Environmental Services

- Specifically made for healthcare cleaning, Trust L3 Wipes are ideal for daily cleaning and high risk disinfecting
- Engineered with a unique triple-layer construction. These wipes offer a cloth-like feel with strength and absorbency
- An economic alternative to laundered cloths, these wipes offer you an effective way to clean and disinfect

Applications:

- Isolation Room Cleaning
- Operating Rooms / O.B.
- Medical Equipment
- All hospital environmental service applications

Advantages

- ✓ More durable
- ✓ Better cleaning through enhanced abrasion
- ✓ Excellent liquid absorption
- ✓ Controlled liquid release to maximize contact times
