

Infection Control At Your Fingertips...

NEW Health-Key Infection Control Keyboards

Created in collaboration with a major hospital, these feature-rich keyboards are easy to set up, use and keep clean. Infection control features help keep patients and staff safe.

- **Smooth, Gorilla® Glass surface**
- **IP68 water-resistant & dishwasher safe**
- **Automatic notification when keyboard needs to be cleaned**
- **Adjustable cleaning frequency requirement**
- **Built-in touch pad, no need for a separate mouse**
- **Wired & wireless connectivity options**
